Students then learn to graph linear functions in the “ $y = mx + b$ ” format; this part of the course introduces the concepts of slope, y-intercept, and x-intercept, and teaches students to graph linear equations. A major part of Algebra I is learning to convert information from equations to graphs and from graphs to equations, and ...

The AP Environmental Science sample questions on both versions of the practice tests come from established curricula and represent the same types of questions that have been asked on past exams. The major topics covered include ecology, nature, evolution, ecosystems, biology, and a range of natural cycles.
